Looking at the news with Col. Hugh McKinnon

It is from a woman's suggestion comes that women should not be allowed to talk over the radio. We know of no other place where they can be prevented.

President Roosevelt was not impressed by the charge that certain brain-trusters were planning to overthrow the government. Being a bit of a revolutionist himself, he knows that one good revolution deserves another.

There was a time in Canada when it was considered unconstitutional for a bye-election to go against the government, but for the past twenty years or so, the attitude of a bye-election toward the constitution has altered considerably.

Some people objected to a play being put on in Toronto by an excellent English company as being too suggestive and the morality squad of the police department made the managers tone it down. It was suggestive, all right; in fact it would have scandalized our Victorian ancestors. But, hang it all, we can stand for more than they could. They could bear hardships and privations better than we but their sensibilities were too tender and their sense of the proprieties was too delicate. The Victorian was too modest to paint the things as he saw it for the God of things as they are and were and ever shall be.

There has been a cut in the British income tax but the standard tax is still as high as four shillings, six pence the pound. We mention this to give aid and comfort to the Canadian income taxpayer.

Trotsky has been driven out of France for engaging in revolutionary activities. It makes no difference what country gives them asylum, the Trotsky's cannot help conspiring against it. Their promise to refrain has no value. Communism is a disease and every country is justified in establishing quarantine against it, for the bearer is proud of it and eager to spread it by infection, contagion and propaganda.

It is interesting to read in the

(Continued on Inside Page)

ENSIGN LADIES AID CLUB ACTIVITIES

The regular meeting of the Ensign Ladies' Aid was held at the home of Mrs. Finlayson, Wednesday, May 2nd. Eleven members and three visitors present with Mrs. Finlayson in the chair. Meeting was called to order by singing "What a Friend We Have in Jesus." This was followed by members repeating the Lord's Prayer.

Devotional leaflet "The Woman of the Home" was read by Mrs. Finlayson. Roll call was answered by "Christian Hymns." Minutes of previous meeting read and approved. Financial statement given and accepted.

It was decided that the secretary write to Mrs. McMillan, Okotoks, to get full particulars of the Radway School Home. Mrs. Hyde kindly consented to take charge of flowers that were to be sent to anyone in the community.

A meeting of the members was to be held at the home of Mrs. Wetherup, Wednesday, May 16th in order to send on quilt for Radway School Home.

It was decided that Mrs. Rennie of High River be asked to be the speaker at our June meeting. Invitations to be extended to Brant Ladies' Aid and Red Cross ladies. Plans were made to have the Institute and the Aid hold their July picnic together at High River Park.

Miss Farquhar read the last chapter of the "Study Book." A delicious lunch was served by Mrs. Swartz and Mrs. Wetherup.

The members of the Aid regret very much losing Mrs. Harris, the president, who has moved away from this district. Saturday afternoon, April 21st, a farewell party was held at the home of Mrs. Hyde, when the secretary Mrs. Ferguson presented Mrs. Harris with a gift including the best wishes of the Aid.

SATURDAY NIGHT DANCES OPEN AT THE LEGION HALL

On Saturday evening last the yearly Saturday night dances opened at the Canadian Legion auditorium, and from now on—every Saturday evening—the music of the Len Davis orchestra will be heard by the Vulcan dancers. The response to the opening dance was good considering the short notice with advertising and as time goes on huge crowds will fill the hall. Of course, the music for the dances by the Arcadians needs no comment, the group having been for years the best orchestra in Southern Alberta.

OBITUARY

John Arthur Campbell Thompson

Death took another Vulcan citizen in the person of John Arthur Campbell Thompson, during the early hours of Saturday morning, May 5th, after a lingering illness of several years. He was 42 years old.

Mr. Thompson was born in Dublin, Ireland, on October 20th, 1892, and moved to Edinburgh, Scotland, while a child. In 1911 he came to Canada, moving west to the town of High River. First residence in Vulcan was made in 1915. He was employed here by Buck and Howson's till 1917, when at that time, he returned to High River, but only for a short period. He returned during 1918, when he was employed by Mr. A. G. Spooner until 1923. Since that time he has resided in town with the exception of one year spent in Boston, Mass.

Mr. Thompson was married to Miss Lois Bishop of Vulcan, on February 15th, 1920. One daughter was born to the union, Jean. Both survive to mourn his death.

In 1916, deceased offered his services to his country in the Great War, but was returned home on final examination made in Nova Scotia, when his regiment were ready to leave for France.

He was a follower of all sport, and during his active years, was secretary of the old semi-pro. baseball team and other organized sport in town. For a number of years he was the secretary of the Presbyterian Sunday school.

During the past five years Mr. Thompson was in poor health, unable to take active part in community life or occupation. A month ago he was released as a patient from the Municipal hospital and appeared to be improving until he was suddenly stricken on Friday morning, never gaining consciousness until the end came at 1 o'clock Saturday morning.

A great number attended the funeral service held from the Vulcan United Church on Sunday afternoon at 1:30 o'clock, Rev. P. G. McPherson conducting. Burial was made in the Vulcan cemetery with A. W. Kelly in charge of the arrangements. Pallbearers were Wm. Recor, Ray Flynn, Lorne Leverington and Russel Robson.

HOSPITAL NOTES

Miss Violet Smith of Milo is a patient, resting nicely.

Mr. Charles Sallstrom is a patient in the hospital.

Mrs. George Smith has recovered enough from her illness to return home.

The interior and furnishings of the hospital are receiving a brightening up with a coat of paint this week.

Friends of Mrs. Douglas Sr., will be sorry to learn that she is confined to the hospital.

The superintendent of the hospital Miss McLeod, wishes to acknowledge the following donations: \$5.00 from the Eastway W.I. (this is being used to buy material for the nursery); crate of eggs and vegetables from Mrs. Wm. Myers.

Rev. P. G. McPherson attended the High River Presbyterian meeting held at Parkland on Tuesday.

The Reid Hill U.F.W.A. will hold their regular monthly meeting on the evening of Friday, May 18th in the Reid Hill community hall.

Regular meeting of the Reid Hill U.F.A. will be held Friday evening, May 18th in the Community Hall. A dance will follow. Good music by an old-time orchestra. Admission 25c. Ladies kindly bring lunch as usual.

Programme Arranged For Victoria Day Celebration

Elks Have Attractive Posters Printed Announcing Yearly Event

Programme arrangements for the annual Victoria Day celebration under the auspices of the Vulcan Lodge, 121 B.P.O.E. have been completed and large posters have been issued from the Advocate Printery announcing the event. These are being placed in all towns in this southern portion of the province and large patronage is anticipated from nearby communities.

The programme opens at 1 o'clock with the Vulcan Prize Band in attendance. Champion, Arrowwood and Vulcan are the towns to be represented in the baseball tournament. These teams will all be in the junior class and some snappy ball playing can be expected.

Of course horse racing will be one of the main features of the day and printed programmes will later be printed giving a schedule of the different races. Cash prizes are offered totalling 150.00.

Softball fans will have an opportunity to see three teams in tournament—Brant, Nanton and Vulcan. This game is growing in popularity every year and should attract large galleries on this day.

The four star feature of the day is the introduction of the game of box lacrosse to the Vulcan public. This attraction is being staged in the arena at 8 o'clock in the evening. Two of the fastest teams in Alberta have been engaged for the occasion, the Calgary Shamrocks and the Lethbridge team. Sport fans need not fear of disappointment with teams of the calibre of these playing. During the evening the boys from Nanton and Vulcan who are learning the game will be given a tryout along with the experienced players.

The day will conclude with a big dance in the Oddfellows' hall with Len Davis and his orchestra providing the music. Celebration really starts on Wednesday, May the 23rd for this same orchestra will provide music for a dance on that evening.

Come and have a full day's fun say the Brother Bills. Admission prices may be seen on the printed posters and further information may be obtained from them.

Vulcan Driver Files Defence in Wegh Suit

That his service truck was parked on half of the road and there was plenty of room to pass, was the statement made late Saturday by Edward Arme, Vulcan garage proprietor, in defence to the writ for \$600 damages issued against him by Sigmund Wegh and other members of his family. Armey counterclaims for \$163.53.

Wegh alleges that the truck was parked across the road, aiding a car in the ditch, that it obstructed traffic and had no lights, and that these were the causes of the accident October 7, 1933, about 10:30 o'clock at night when his car crashed into the truck.

Arme Saturday said the accident was due solely to the failure of Wegh to operate his car with "the care of a reasonably prudent man," and to contributory negligence on the part of Wegh. Plaintiff was driving recklessly and his brakes were inefficient, Armey charges.

After seeing the truck he made no attempt to slow down or stop, if necessary, and wait until the truck was moved so plaintiff could pass without accident, Armey contends. Wegh was also not keeping a proper lookout. He says Wegh's wife and children acquiesced.

Armey claims he was only using half of the road, and that the other half was free so as to allow traffic to pass safely. He says Wegh, contrary to the Highway Regulations Act, refused to turn out to the left. The garage proprietor counterclaims for \$88.53 damage to the truck, \$50 for depreciation, and \$25 for loss of use of the truck for a week.

J. McKinley Cameron, K.C., is acting for Wegh; Messrs. Macleod and Edmanston for Armey.

MAY MEETING TOWN MATTERS

Members of the Vulcan Town Council met in the council chamber on Monday evening for the May session. Councillor Wittcock was absent.

Minutes were read and approved. A number of accounts were read and passed for payment on motion by Councillor Wolfe.

Joe Dobbs, on behalf of the Vulcan Elks Lodge, asked for the permission of the use of the sport grounds for the May 24th celebration sponsored by that organization. Moved by Councillor Allan that permission for the use of the grounds be granted. Carried. Permission for the use of the skating arena for the promotion of box lacrosse was also granted.

The matter of building a cement sidewalk adjacent the Imperial hotel property was brought before the council. Moved by Councillor Allan that the matter be tabled until further information on the cost of the project be received. Carried.

The bill for \$101 presented to the council by Dr. H. P. Barker for indigent dental treatments was not allowed on motion made by one of the councillors. The councillors were unanimous in their vote on this motion.

Robert Simington, president of the local branch of the Canadian Legion, was present at the meeting, and made enquiries on the possibilities of the Legion taking advantage of the 10 per cent. discount during May under the present agreement between the town and the organization. This discount will apply on current taxes providing the arrears payment is made in May also.

PROMOTES PEACE PROGRAM FOR WORLD GOODWILL DAY

Mrs. M. L. Todd, of Vulcan, convenor of League of Nations Society for the Women's Institutes of Alberta, has been actively engaged promoting the World Goodwill Day programme for May 18th, 1934, throughout this portion of the province during the past month. Schools have been visited and the teachers made acquainted with the Goodwill Day programme. On this day goodwill messages of the school children are exchanged with messages of children of other lands in hope that the Brotherhood of humanity will become a positive reality in the hearts and the minds of the youth in all nations in order that war and international strife will forever be removed and that Peace and Goodwill will reign amongst the peoples of the earth. A special programme has been arranged for that day, including a children's hymn for peace, peace hymn of the world and other songs. It is expected that most of the schools in the Vulcan district will take part in the carrying out of the goodwill work.

\$683 Damages Sought After Car Accident

Action for \$682.87 as a result of a collision between two automobiles near Vulcan, September 27, 1933, has been entered for trial in Supreme Court sittings commencing May 14, it was learned Monday. Mrs. G. M. Hesleton has sued N. S. Campbell, Vulcan implement dealer.

Bert Robbins was driving Mrs. Hesleton's oil truck on the main road. Mrs. Campbell, driving her husband's car, came on to the road from a branch highway from the east. Plaintiff says she cut in front of the truck and forced it into the ditch. Plaintiff claims the right of way.

Campbell denies he had any control over or ownership of the car. If any accident occurred it was caused by negligence on the part of Robbins, whose neglect was the sole or proximate cause of the accident, he claims.

Writ was issued November 7 by H. H. Gilchrist, solicitor for plaintiff; defence, Defence, December 14, L. H. Stack, Vulcan, for Campbell.

WORLD TRAVELLER WILL BE HEARD AT VULCAN

Cyril B. Nance-Kivell, B. Lit., well known world traveller, of Calgary, will be heard in Vulcan for five days, commencing on Friday evening May 11th at the local Church of Christ. The opening lecture is entitled "The World's Debt to Jesus Christ," continuing on Saturday evening he will speak on "What Makes a Man a Man?"

On Sunday Mr. Nance-Kivell, who is connected with the Central Christian Church of Calgary, will deliver sermons at both the services at the Church of Christ.

"War and Peace—Which?" is the subject of lecture on Monday evening. On Tuesday evening the speaker has a subject of a great deal of interest to the High School pupils, and a special invitation is being offered them to hear "Australia and the Blacks."

Posters have been printed announcing the visit to Vulcan and further information may be obtained from them. No charge is being made for this series of talks.

WOMEN'S INSTITUTE HEAR REPORTS

A very enjoyable meeting of the Vulcan W.I. was held at the home of Mrs. D. Allred on Friday last. The meeting was opened by community singing and the usual prescribed manner. Mrs. Brodrick, the president occupied the chair. Correspondence and business were duly dealt with.

Mrs. Brodrick gave an interesting report of the Calgary Conference, after which Mrs. Martin move a hearty vote of thanks for the delegate. An interesting paper on the League of Nations was read by Mrs. Shaw. A vote of thanks was given this on motion by Mrs. Monkman. Mrs. Lambert gave a talk on rug making. Many useful hints were given on this instructive art.

The roll call was answered by a favorite poem. An invitation was accepted from the Brant W.I. to visit them on June 1st at 2:30 p.m.

The meeting then adjourned and a dainty lunch was served by the hostess which brought to a close a pleasant afternoon.

The next meeting of the W.I. will be held at the home of Mrs. A. T. Martin on Friday, June 8th at 2:30 p.m.

Mother and Daughter Banquet Successful

Daughters and Their Mothers Have Delightful Evening Together; Mrs. G. Oldfield Guest Speaker

An important event in the community life of town was somehow missed from the columns of this paper last week. This was the Mother and daughter banquet held in the United Church hall on Wednesday, April 25th. Mrs. G. Oldfield of Milo (formerly Miss W. Gilhooly of the Girls' Work Board) was the guest speaker for the evening, and brought an inspiring message to both mothers and daughters of the different Vulcan churches.

Miss Sadie McCartney was toast hostess for the occasion and proposed the toast to "The King." This was responded by all singing "God Save the King." Toast to the church by Miss Alice Watson, response by Mrs. W. Peterson. To the mothers by Miss Helen Wright; the response by Mrs. Neil Campbell. To the daughters by Mrs. B. D. Lockhart, response by Miss Dorothy Ottewell.

On the programme were: duet by Misses Helen and Lillian Ulrich, "Beautiful Ohio," with Miss Betty Wright at the piano; duet by Misses Ruby Collier and Ethel Campbell, "A Girl's Best Friend is Her Mother"; others in the items of song and music were Misses Nora Collier, Cora Woodward and Rhoda Scobbie.

An attendance of eighty at the banquet was very gratifying to the convenors of the evening; Mrs. B. D. Lockhart, convenor of the supper; Miss Grace King, convenor of the programme; and Miss Margaret Woodward, convenor of decorations.

News Items Gleaned Around the Town

The United Church Ladies' Aid Society is sponsoring a Saturday night supper in the church hall on May 19th commencing at 5 p.m. Admission 25c.

The canteen of the Canadian Legion club quarters is this week receiving a coat of paint. Frank Gustafson is the painter on the job.

The Ladies' Circle of the Church of Christ will hold their next meeting at the home of Mrs. Roy Lilly on Thursday, May 17th. Will all members please be present.

The burning question of the week—What did Earl Peterson receive in the huge parcel he got through the mail the other day? Does it make good brew?

A Mothers' Day service will be held at the United Church on Sunday morning at 11 o'clock. This service will be a combined service for the Sunday school and parents.

The Ladies' Aid of the United Church group meetings will be held on Wednesday, May 23rd, at 3 p.m. This is a change from the regular meeting day due to May 24th being a holiday.

J. H. Deans of Vulcan is still a patient in the Belcher Hospital at Calgary. He is slowly recovering from a serious operation. Friends of Mr. Deans will be pleased to hear of his improvement.

Vulcan business men attending the Retail Merchants Association banquet were F. L. Simington, Fred Anderson, Bill Rodney, Wm. Brown, H. W. Johnston, Pete McArdle and D. Skinner. The affair was held at Lethbridge on Monday evening.

Services will be held at the St. Andrew's Anglican church on Sunday, May 13th, as follows: 11 a.m., Holy Communion; 7:30 p.m., Evensong. Preacher at both services will be Rev. Phipps-Williams, B.A. All are welcome.

Basketball nets are being erected on the United Church lots adjacent to the church building for the benefit of the young folks of the town. These lots are popular playgrounds and the added feature should make them more so.

The ladies of the C.W. League of St. Andrew's Church are perfecting arrangements for a lawn social, which will be held on the church premises Saturday afternoon, June 23rd. They anticipate having afternoon tea, home delicacies, fish pond, plain and fancy sewing.

Last Thursday proved a successful day for the Bible Class of the Church of Christ, when twenty-eight gathered at the home of Mrs. Boose of Kirkcaldy for their regular monthly meeting. The afternoon was spent in the map study of Palestine. All enjoyed the study, and appreciated the hospitality of their hostess. The ride to and from Kirkcaldy was made by truck.

From the Bow Valley Resource: Frank Meredith, who is working for M. P. Marshall, met with a painful accident on Saturday. While seeding he had occasion to move the seed wagon, which was on a sidehill, and in doing so, by hand, the wagon got beyond his control. He was knocked down and two of the wagon wheels passed over him, breaking two ribs. He is at present a patient in the Vulcan hospital.

Weather for the past week has been as a general rule, mild. Little rain has fallen—just a few scattered showers throughout the district. Drying winds have seriously menaced the growing crops and heavy rains are needed badly. Seeding operations are practically completed and the farmers are now turning their attention to summer plowing work and wheatland plowing. First seeded wheat is now up well above the ground, a proof that the season has been an early one. Grasshoppers started hatching last week and the poison mixing stations for both the Royal and Marquis municipalities are being put in operation at once.

CHARLES CLARK, Proprietor

MOTHERS' DAY

If you have a gray-haired mother, in the old home far away, sit you down and write the letter, you put off from day to day.

Don't wait until her weary steps, reach Heaven's pearly gate.

But show her that you think of her before it is too late. If you have a tender message, a loving word to say. Don't wait till you forget it, but whisper it today.

Who knows what bitter memories may haunt you if you wait.

So make your loved one happy before it is too late. The tender word unsoken, the letters never sent.

The long forgotten message, the wealth of love unspent. For these some hearts are breaking, for these some loved ones wait.

Show them that you care for them before it is too late.

THE PURSUIT OF OIL

When H. N. Sheppard of Pekisko urged the formation of a Surface-Owners' Protective Association, he called attention to a very important point. He said "In this province are 2,500,000 acres under mineral lease, and one third of the province is marked as oil-bearing structure." The suggestion is, that although the struggle of landowners for adequate compensation, may be localized, and at the present moment, outside the immediate worries of the majority of surface owners in the province, the day may come when they also will have a struggle on their hands. The pursuit of mineral wealth is so keen that no one may predict where next it may be carried on. As an example it was announced this week that a systematic filing of mineral leases has been made on land lying between Aldersyde and Azure. This indicates the spreading potential oil area in our own district. Other districts may be at any time similarly placed.

For this reason it seems most necessary that the Alberta Landowner's Protective Association receive support from all farm owners and farm organizations. Only by strength of numbers can they impress sufficiently the justice of their claims.

It has perhaps been natural that the oil companies should take advantage of the laws to the fullest extent possible in their development. The fault lies not with oil companies, but with our laws which do not protect the landowner. Consider the vast sums spent by any company on equipment, skilled labor and actual drilling. Yet the very pivot of their search, which is the location, is picked off for a relatively meagre sum. Without the location, what would their equipment avail them? Surely a rental value of \$100 an acre is not too much to expect in a project which runs into thousands of dollars in other phases of expense. And surely one per cent. on production, either in the form of a tax returned from the government, or a royalty, is a reasonable request. In United States the surface owner has full and complete control of his land, and his right of ownership permits him to dictate his own terms. The Canadian owner is entitled in all justice to some measure of security or compensation.

Referring again to the mineral leases filed this week in this immediate district, this may mean further development or it may mean the removal of this leased area from any development. There are some who are bold enough to predict, that in a very few years, there will be no worry about wheat and wheat prices, because oil will bring wealth to the country. This can only be the case, if development is allowed to proceed. In this connection, the identity of ownership in all oil leases should be checked carefully to prevent any monopoly of ownership. This is a matter in the hands of the Provincial Government. Our oil resources are their trust, and must be kept free of any possible monopolistic grip. Otherwise our God-given wealth will bring to us neither blessing nor comfort.

PANORAMA OF THE PAST

One of the most fascinating occupations of a newspaper office is browsing through the back files. What were people thinking and planning ten, twenty, thirty years ago? What were the recreations, the current anxieties and hopes? How does this season compare with the other seasons on the records?

Being an agricultural district it is natural that special interest always attaches to the weather, the crop prospects and prices. And in searching for data on such matters one is struck with the thought that Alberta—probably like all other agricultural areas—has been a continuous scene of battle, with ourselves the warriors. The panorama of the past thirty years presents a picture of unceasing struggle. Battles have been won and battles lost but so long as nature tosses her favors, now on this side and now on that, there appears to be no decisive final victory. We may resign ourselves to struggle, so long as we are an agricultural people.

Skimming over the story of the years, one sees notes on the grasshopper menace, the sawfly, the cutworm. One reads of apprehension because of drought, flood, frost, weeds or hail. Each new season has presented new problems, new weather conditions, new world causes for hopes or fears.

Although the perennial warfare continues without any ultimate victory, man has not stood still. New weapons of warfare have been devised. The agricultural departments are perfecting quicker ripening types of grain. They combat insect pests with well equipped organization. Each branch and element of agriculture has made advance in the past three decades, and many of the enemies of early years are now on the defensive. To be sure there have been blessed lulls in the conflict, when nature has been kind and gentle, the full season round; when not an apprehension or mishap dulled the serenity of the progress, these perfect seasons have been rarer than one would think.

One turns from this record of struggle, to a realization of our grand capacity for forgetting. Most of us, think-

ing back over the past, would assert quite honestly that we have had a pretty good existence in the past thirty years, and that this district has had practically no major disasters. This belief is based, no doubt, on the fact that in almost every year we reaped a very good harvest. Eventually we came through each season with heads up and colors flying. So we sum it all up by saying this is a grand district.

But anyone who believes we have "had it soft," should take a refresher course in the back files of our weekly paper. That tells the story of almost perpetual combat.

KINDER TO THE SOIL

A caller at the office this week, who has farmed in this area since the first days of local grain growing, expressed doubt that strip farming was the complete solution of soil drifting. He said: "It stands to reason that land which has been cropped for almost forty years, will lose its fibre if nothing is returned to it. We are not playing the game with our soil, and we are beginning to pay the penalty."

Soil drifting is becoming a great menace in other southern areas even more than here. The surface soil has become completely pulverized through cultivation, and bare fallow land is carried before the winds.

The Lethbridge Herald dealt with this extensively last week. It said that it was a great temptation when wheat was in heavy demand and prices were good to crop the land to the limit of possibility. Now, however, the situation is quite altered. Encouragement is given to reduced wheat acreage, and what better time could there be than the present to return something to the soil which will rebuild the fibre. The Herald suggests the use of crested wheat grass as a satisfactory grass growth.

It has been hinted in various quarters that the government will not look favorably this year on requests for feed stock. If there is a feed shortage, there must be a very good reason why any relief should be given. The farmers know that the world is not clamoring for wheat. If they elect to grow a surplus, at the sacrifice of a sufficient fodder supply, they are showing poor judgment and may have to suffer for it.

A number of local farmers are looking forward to the possibility of finishing young stock this winter, and are increasing their acreage in feed suitable for that purpose. A number also are seeking to secure themselves with plenty of barley and oats for hogs. There is certainly no reserve of feed in Southern Alberta at the present, and effort should be made to remedy this situation to some extent this season.

IN THE SPRING, TRA, LA!

The full flower of Spring has loosed a flood of buying orders as it has often before done in Okanagan Valley. People are buying cars, improving their homes with paint and flowers and in the offices they are buying supplies.

Another form of the same impulse is the Spring poet. It is rather astonishing, though it is true, that many people prefer, when the buying urge is on them, to do business with strangers. A slick bond salesman recently took a lot of Okanagan Valley good fellows for a ride on a proposition they would not have entertained had a local man the gall to have put it up to them.

Recently there was a police court case and a fine for vendors of laces. The laces were dear by any comparison with laces of similar quality sold by local business houses.

In the printing line too, a number of salesmen from Calgary, Winnipeg and Toronto must smile sweetly when they recall the sales they make and the prices they get from Okanagan Valley buyers. They have a leader or two, an exclusive air and offer a superior contact with the local buyer. Several buyers of printing who have taken the trouble to ask for prices on similar quantities from the printer in their home town have the satisfaction of doing business with people they know and that which comes from having made a good deal.—Vernon News.

SELL BY BUYING

From the Lethbridge Herald comes the following editorial:

George Hoadley had some pertinent things to say about the Anglo-Canadian cattle trade when he appeared before the Stevens mass buying committee at Ottawa on Thursday. He declared that the Britisher was expecting us to live up to our quid pro quo agreements, and if we expected him to buy more cattle and other products from us we would have to buy more of his goods from him. That, of course, would mean larger imports from the Mother Country, and even if this does not square with Hon. Mr. Hoadley's former political philosophy, the fact remains that the suggestion is sound.

If, in our trading, we could forget the part which money plays in the transaction, and could convince ourselves that, as a nation and as individuals we are not selling or buying goods and services for money but simply trading them to the mutual benefit of all, how much richer we would be. Everybody would go to work, produce goods and services, and trade their surpluses for the goods and services of others which they need. Then there would be no question of putting obstacles in the way of trade. We would know that our riches in the standard of living we could enjoy would depend upon the movement of goods. Today we measure them with money, mistaking the token for actuality.

Goods and services are not money. If we wish to trade them for other goods and services which we need, and which will benefit us and make our lives more pleasant, we will quit thinking of them as money but merely as commodities which we do not need but which we can trade with others for their surpluses of goods and services which we do not need and can enjoy.

TAX ON GOLD

There is one feature of the tax that should in justice be changed. There are rich and poor gold mines. The poor ones pay almost as heavy a tax per ounce as the rich. There is one Ontario mine that wins over \$18.50 from every ton of ore handled at present gold prices. There is another that has to handle four tons to secure as much gold. The profit per ton in one case is over \$5, in the other about 70 cents. Clearly the tax should be in some way be related to tonnage-value instead of the value of ore extracted, irrespective of the great cost of handling ore of low gold content. A tax of 15 cents per ton of ore handled would be as heavy a drain on the profits of the low gold content mine as a tax of \$1 a ton on the output of the rich mine.—Toronto Globe.

SUCCESS DEPENDS ON FARMER SUPPORT

In Reviewing Crop Reduction in U.S.
A. H. Sibley Says Plan Depends on
Voluntary Acceptance

Mr. Harper Sibley of Rochester, New York, director of the Round T Ranch company, who has been a recent visitor at the Round T, has an intimate knowledge of the Agricultural Administration Act as operating in United States. Mr. Sibley is chairman of the Agricultural Committee of the United States Chamber of Commerce, and has served with Henry A. Wallace, secretary, in connection with agricultural administration and the solution of the pressing farm problems of United States.

While in High River, Mr. Sibley consented to give information on the operation of the A. A. Act and its accomplishments to date. While making no predictions as to the future, he said that this Act had been splendidly supported up to the present, with 80 per cent. of those farmers, whose products come under the administration, voluntarily subscribing. In this program of restricted production, he was of the opinion that the success depends on voluntary acceptance and a spirit of goodwill amongst the farmers, an attitude which has been very evident to date.

Would it Work in Canada?

When asked if a similar policy would be a good thing for Canada, Mr. Sibley said he would not presume to express an opinion on such a matter, as he was not sufficiently familiar with Canadian problems. "Whether or not the Canadian farmer is prepared for such a policy of restriction, I do not know."

"It must be realized that our program was built up over a period of years, through publicity of various sorts. It was by no means an overnight plan. I should judge, however, that there are many points of similarity in our problems, and Canada may be wise in watching to see how we come out."

"I am quite hopeful of the beef situation in United States and if the price of American cattle is raised there seems likely to be a relative rise in the price of Canadian cattle. The close relationship existing between the two countries is bound to have result."

Secretary Wallace

Secretary of Agriculture Wallace, says Mr. Sibley, is a high type of man, and his colleagues are none of them politicians but are the best trained men available for the work,

mainly from agricultural colleges. While the NRA and AAA were launched as temporary expedients, it may be necessary indefinitely to control production. "Over-production is after all not wealth, but waste," said Mr. Sibley, "and the ability to buy must be the test of justifiable production."

Through the disappearance of foreign markets and decreased home consumption, United States found itself with an unmarketable surplus. The purchase of the surplus by the government proved costly and ineffective, so Secretary Wallace's plan has been an orderly curtailment, by taking acreage out of production. The only satisfactory way of curtailment, it has been found, is by voluntary direct contract with the farmer for a money consideration, the compensation based on the past three-year average. The farmer is then bound legally by his contract.

No New Agencies

When asked if this program of curtailment did not set up an immense bureau, Mr. Sibley said that it is not at all as cumbersome as expected, and could be accomplished with little government supervision. The quota is allotted to the state, thence to the county, then to the township. Each township appoints a committee of farmers, who work with the county farm bureau agent, to make the act operative in their own community. The county bureau agent is paid through dues from farmers, plus a grant from the government. But no new agencies have been set up by the government.

In Illinois, for instance, where the speaker has farm holdings, 121,000 contracts have been signed to reduce corn acreage 20 per cent. and hogs 25 per cent. Eighty per cent. of the farmers have signed voluntary contracts. The compensation for the acreage withdrawn from salable crop has been 30 cents a bushel for corn, and a proportionately fair price for hogs. This has raised the price of agricultural products 60 per cent. and corn has increased 300 per cent., owing partly to last year's poor corn crop. The compensation money comes out of a processing tax on products.

There is much objection to the processing tax on the part of millers and other processors. But this is passed on to consumers. They, on the other hand, have benefited by the NRA which has raised wages 50 per cent. and shortened hours. This has added to employment, and increased the purchasing power, Mr. Sibley said.

Taxes Mortgages the Same

"It must be remembered also," said Mr. Sibley, "that while wages and agricultural prices have been raised, taxes, interest rates, mortgages and so forth are fixed and in this respect the payment of these charges are much more possible."

Until the present, no attempt has been made to curtail dairy or cattle production, but under a law passed last month these have come under the administration. The dairy products program is now operative. By it, every dairy farmer must agree to reduce milk and milk products. The tax is on butter fat. This move will raise prices slightly to the consuming public, but should bring adjustment, Mr. Sibley said. The government has set aside \$250,000,000 for the purchase of tubercular and low grade cattle, to get these out of the way.

There has been an increase of 1,000,000 cattle a year in the past five years in the United States. These are mostly dairy cattle, but many have gone on the beef market, to the injury of the latter, he said. The stockmen of United States are probably in the worst position of all. There is as yet no program for beef cattle, but it is admitted that there are too many beef cattle produced—particularly in view of the entrance of dairy cattle on the beef market. The cattleman will probably be paid a bonus to sell fewer feeders off the ranches and feeders in feed lots will have to agree to sell 10 per cent. less.

Oil Situation

Mr. Sibley has been following with interest the situation of the land owners in South Turner Valley, where the Round T has large surface holdings. When asked his opinion of the struggle of land owners for a more equitable arrangement with oil companies, he said it was an entirely new situation to him. In United States the surface owner's rights go down to China and there are no complications of "rights." The government does not enter the picture except insofar as it might tax production or curtail output from a certain area. The owner has full rights and makes his own terms. In Canada he is by no means so fortunate.

Cecil Lockton and J. Scarlett of Nanton will go to England with the Stampede outfit.

GENERAL NEWS

The tobacco price pact has been the object of criticism by Ontario tobacco growers who claim that the profits of the tobacco companies exceed the receipts of the growers.

President E. W. Beatty of the C.P.R. says: "It has never been suggested the C.P.R. should assume ownership of the National system—that will remain with the government as will the ownership of the C.P.R. remain with its present proprietors." In effect the suggestion is a partnership with a division on an agreed basis of the net earnings of the properties jointly operated. Private administration is recommended as that most likely to lessen or eliminate political influence and secure maximum efficiency.

An unusual bequest in the will of the late Charles Henry Marshall of Nanton, will be studied by a supreme court judge on May 21. The deceased left \$1,000 towards the cost of building an United church at Nanton. The added stipulation is made however that the sum of \$1,000 is only "to be paid when such building is erected. Executors of the will, George G. Coote, Charles Marshall and M. Ethel Mythaler want the court to decide what they are going to do about carrying out the terms of the will.—Nanton News.

THE LADIES' AID

The old church bell has long been cracked.

Its call is but a groan.
It seems to sound a funeral knell,
With every broken tone.
We need a bell the brethren said,
But taxes must be paid,
We have no money we can spare,
Just ask the Ladies' Aid.

The shingles on the roof were old,
The rain came down in rills.
The brethren slowly shook their heads
And spoke of monthly bills.
The chairman of the board arose
And said, "I'm afraid
That we shall have to lay the case
Before the Ladies' Aid.

The carpet had been patched and
patched,
Till quite beyond repair,
And through the aisles and on the
steps
The boards showed hard and bare
"It is too bad," the brethren said,
An effort should be made
To raise an interest on the part
Of the members of the Aid.

The preacher's stipend was behind
The poor man blushed to meet
The grocers and the butchers as
They passed him on the street.
But nobly spoke the brethren, "The
Pastor shall be paid."
We'll call upon the treasurer
Of our good Ladies' Aid.

"Ah," said the men, "the way to heaven
is long and hard and steep,
With slopes of ease on either side
The path is hard to keep,
We cannot climb the heights alone,
Our hearts are sore dismayed,
We ne're shall go to heaven at all
Without the Ladies' Aid."

NEW BEER RULES COSTLY TO HOTELS

Recent regulations are placing a heavy burden upon licensed hotels. Although beer licenses were reduced from \$210.00 to \$150.00, a new 4 per cent. tax was added to all sales. On an average business this sales tax would run to about \$190.00 a year, which means an actual increase in cost of about \$130.

1934 Chevrolet has New Engine and Knee Action Wheels

MANY IMPROVEMENTS

The Chevrolet Six for 1934, with an engine of new design delivering 80 horsepower, with knee-action front wheels, and with increased all-round performance, is considered the most extensively improved annual model since Chevrolet became a Six. The new front wheel springs are enclosed in an oil-filled housing attached rigidly to the frame, making a neat and efficient type of individual suspension. Larger and more luxurious bodies by Fisher, with improved no-draft ventilation, are offered. The picture above shows the Master Six special sedan, and below is seen one of the coupe models.

KIRKCALDY DISTRICT NEWS

Mrs. C. A. Johnston is spending a few days visiting friends in Vulcan.

Mrs. J. Fox has been holidaying in Brooks during the past week.

Mrs. S. W. Lawrie was a visitor in Lethbridge Saturday.

Miss Margaret Gardiner was a house guest at the Clarkson home over the week end.

The D. H. Galbraith and Guy Voisey families spent Sunday visiting friends in the Nanton district.

Mr. and Mrs. S. W. Lawrie spent Sunday visiting friends in the Namaka and Strathmore districts.

Mr. and Mrs. W. J. Saunders were Sunday visitors at Blackie and High River Sunday.

Miss Bantrim of Vulcan was the guest of Miss Kathleen Colwell over the week end.

Mr. Biggar of Youngstown unloaded a car of stock and equipment here Monday and is taking up residence on the J. J. Kidder farm recently vacated by A. E. Wannop.

Mrs. Dudley and small daughter Laura of Three Hills have returned to the district, while Dorothy and Marion will remain at that point to complete the school term.

The local school ground is being fenced in preparation for planting a grove of trees around the outside edge. With proper care these trees will make a nice windbreak in a few years.

The many friends of Master Donald Mallory will be glad to learn that he has returned to the district again after one year stay in Toronto. He left about a year ago in company with his mother for a short visit to friends in the East. Unfortunately Mrs. Mallory was forced to enter the hospital there and is still confined to bed. Donny returned alone and has taken up residence with his father on the farm west of town.

**ROYALITE OIL CO
PROFITABLE YEAR**

Annual Meeting Shows Big Profits, No Drilling Unless Necessary Says J. H. McLeod

Shareholders attending the annual meeting of Royalite Oil Co. Ltd. were told that the company made a profit of \$431,013 last year, had paid dividends of \$541,400 and had a surplus of \$2,455,239 at the close of 1933.

Increases Holdings

The Royalite company has acquired all the assets of the Mayland company and the wells of the Commonwealth, Calmont, McDougall-Segur, A.P. Con and Sterling-Pacific companies. Mr. McLeod stated that negotiations were proceeding with a few other companies.

When asked if Royalite planned to drill any more wells this year, Mr. McLeod said not unless some one drilled against Royalite border. Then an offset well might be drilled. When asked if the company would drill in search of crude, Mr. McLeod said: "No, we will let others do that."

Royalite has offered to buy two British Dominion wells for 2800 shares of Royalite stock. The wells are on section 12 to 20.

**CALGARY POWER
WITH GOOD SURPLUS**

Reduced Operating Expenses; Total 1933 Income Larger Than in 1932

Calgary Power Company reported total 1933 income of \$1,543,630 against \$1,507,510 in 1932.

After provision of \$200,000 for depreciation, \$682,191 interest charges including exchange and \$35,121 amortization, there was \$625,319 available for dividends, out of which was paid \$570,000, representing 6 per cent on both preferred and common stock.

Surplus for the year of \$55,318 brought profit and loss balance to \$1,000,924. In order, the report stated to comply with a new ruling under the Dominion Income Tax Act, an additional sum of \$356,022 was transferred from surplus to depreciation reserve, making the net surplus carried forward of \$734,902.

Gross earnings decreased 4.9 per cent of \$100,451, due in part to the loss of the City of Calgary pumping load upon the completion of the new waterworks of the city in February, 1933, the report states. Operating expenses showed a reduction of \$57,117 and the net income for the year a decrease of \$6,771 under the previous year.

Property account was increased during the year by \$119,619, largely in connection with further work on the Kananaskis Lakes storage project and for the extension of service to 180 country grain elevators. Some storage, the report states, is now available from this development, which can be increased rapidly as occasion demands. More than 1,500 horsepower of connected load was added by reason of these extensions.

The report adds that during the year the floating debt was reduced by approximately \$250,000 with funds available for the purpose. In view of the above report, consumers of electric current should be considered and a reduction of rates should be immediately put into effect.

**G COOTE WOULD
LIMIT DIVIDENDS**

Bank Committee Rejects Plan Submitted by Local Member

George Coote, United Farmer member for Macleod, moved in the house banking committee to limit bank dividends to six per cent a year. It was defeated after running into opposition from all sides.

The Coote amendment would limit dividends to six per cent of the paid-up capital plus the reserve fund. Charles Howard, Lib., Sherbrooke, said this would mean a man could receive no dividend on the amount he paid for his shares in excess of par. R. S. White, Cons., Westmount, agreed.

Hon. E. N. Rhodes, finance minister said bank dividends were considerably lower than the popular conception. For the past ten years dividends for all Canadian bank stocks averaged 5.9 per cent.

Mr. Spencer moved another amendment, also defeated, which would prevent a bank from lending more than 10 per cent of its paid-up capital and reserve to any person without the consent of the executive committee of the proposed central bank.

Mr. Coote proposed an amendment to stop banks from financing stock-market transactions. It was withdrawn to permit another drafting.

**Looking at the News
with Col. Hugh Clark**

(Continued from Page 1)

memoirs of a noted Scottish judge, Lord Cockburn, that although there never was any danger of revolutionary ideas prevailing in Scotland at the time of the French revolution, yet there were many who called themselves Jacobins, professed revolutionary principles and even aped French manners. This may help us to understand why there are today in Canada and other countries many who extol Lenin, flaunt the Red Flag and prate about the new era. It pleases them to embrace something new and to consider themselves advanced thinkers crusading against large but reactionary majority.

Neville Chamberlain did not budget for the payment of war debts, which will probably be disappointing to the United States. But neither did he budget in expectation of war debt payments to Britain. As time goes on, the two great creditors, Britain and United States, will learn to forget the debts and forgive the debtors. Britain, we think, has already done it and, so has the government of the United States, although it cannot afford to say so until the people of the middle States have become more accustomed to the idea.

"I'm a conductor," said Toscanini in declining an invitation to talk over the radio. Those fellows who do talk over the radio are not conductors but they sometimes give the listener a shock.

A correspondent writes the London Times to inquire who it was who first said "I'm not arguing with you—I'm telling you." We really do not know, but Cromwell might just as well have said it when he was purging parliament.

A man has devised an electric contraption that enables you to talk back to a radio performer. Necessity is the mother of invention.

It would be easy to meet the demand to wipe out capital cost of public undertakings that are losing money and let it go at that. It would not take long to forget that the money was sunk, and principal and all hope of interest gone forever. The effect of that would be that the management would become more and more extravagant; salaries and wages would increase and the public whose money was sunk would be asked to show some pride in the fact that the undertakings are meeting operating expenses and perhaps show a small surplus. It is not inadvisable from the public standpoint that the managements recognize the capital investment in each annual balance sheet, just as a reminder. After all the people who invested their money in the undertakings are entitled to some recognition.

It is said that some farmers in the Carbon district are increasing wheat acreage.

Mr. and Mrs. Russel Robson and daughters were Calgary visitors on Monday.

Remember the Saturday night supper in the United Church hall on May 19th.

According to the April 30th issue of the Alberta Gazette, Charles H. Hoskyn of Vulcan has been appointed as Commissioner of Oaths.

**F. M. ANDERSON
& COMPANY LIMITED**

**ERADICATION OF
COUCH GRASS WEED**

Scientific methods for control and eradication of Couchgrass, are available now to the public. Scientific study has been financed by grain companies and the North West Grain Dealers Association. The results have been put into pamphlet form, and are distributed from all line country elevators.

Couch grass was introduced in Western Canada through small lots of seed sent out to farmers in this country from friends in Europe during the latter part of the last century, and before proper inspection facilities were established on seeds imported into Canada. The chief analyst of the Dominion Seed Branch at Winnipeg has found that approximately one half of the Bromus grass seed sent to the Seed Branch for inspection contains Couch grass.

The pamphlet dealing with Couch grass outlines methods for the control and eradication of this weed in a manner that the ordinary layman can easily read and follow. Any farmer troubled with Couch grass in his fields should obtain a copy. It is also particularly valuable and informative to farmers who wish to keep their fields free from this weed.
